

Rationale: Party sustaining membership dues have not permanently increased since December 11, 1993 (more than 30 years ago). (Note: In 2005 dues were increased to \$50, then brought down to zero, then brought back to \$25 at the 2006 national convention.) There has been significant inflation since 1993, meaning that the LNC now receives less resources in real terms from membership dues. Costs of servicing each member have gone up significantly, such as costs of printing and postage. This proposal would better align membership dues in real terms to the last time they were updated.

In effect this proposal would raise dues \$5 every 2 years. It would take 10 years for dues to get to \$50. It would take 20 years for dues to get to \$75. It's unlikely dues would catch up to inflation before 20 years. This would make the dues step-ups take effect at the end of each national convention, at which point staff could update the prices on the website.
